

ACADEMIC SPOTLIGHT

Mrs. Moore's Second Grade

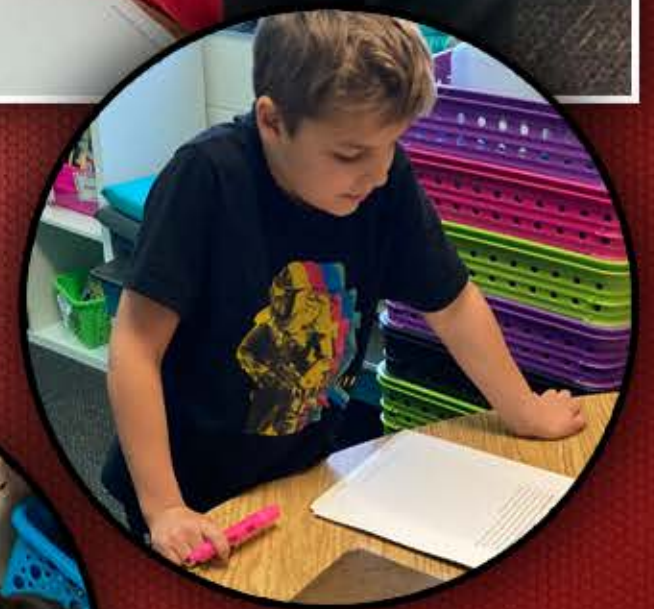

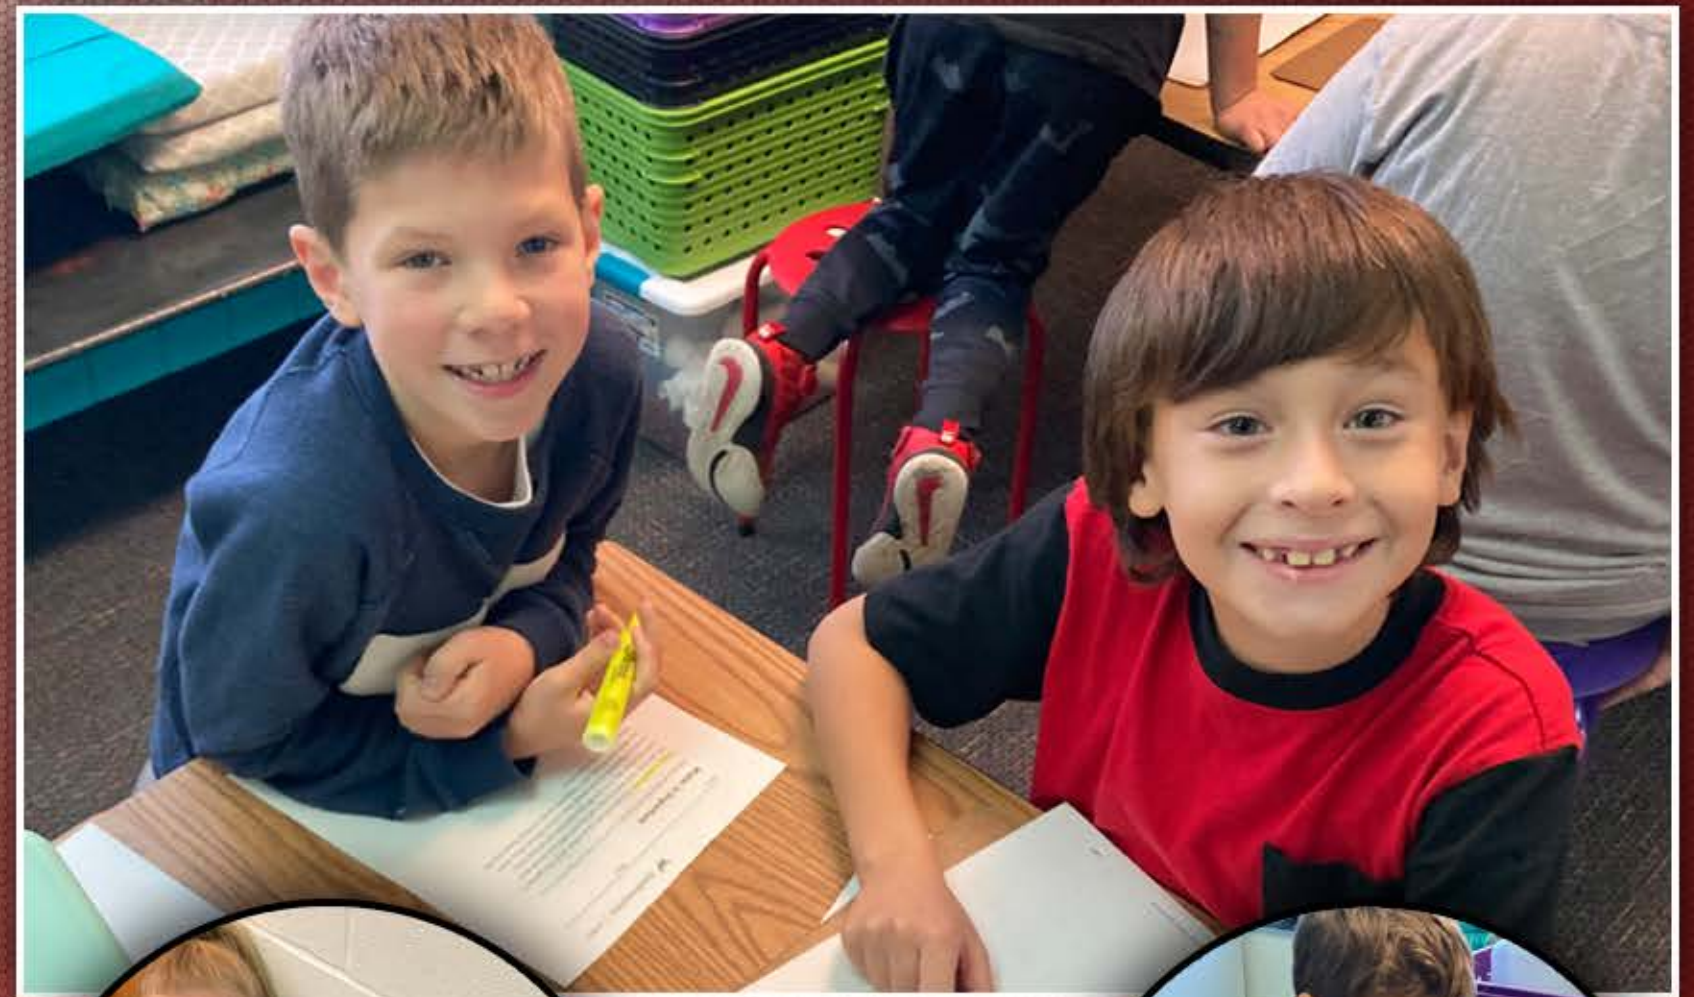

“Welcome to Mrs. Moore’s 2nd Grade Classroom! We have done so much with our new Bookworms Curriculum Resource and our writing has grown tremendously! We have been working hard at our sentence composing and what makes a great sentence. We have also been working on the different genres of writing. We learned about Narrative and Opinion Writing earlier in the school year.

Our current learning is all around Informative Writing! Students have been studying the elements or parts of informative writing earlier this week. They then moved to identifying what an informative writing piece might look like and telling the difference between narrative, opinion, and informative writing. Once they worked through that, they were then able to decide if a piece of writing was a strong informative piece or not! They did this through the use of writing samples along with a checklist. The next piece of our learning will bring us to writing a shared informative piece! We have had so much fun with this experience!”
